

KC YEOH

CHIEF EXECUTIVE OFFICER, TEMUS

Keat Chuan (KC) is Chief Executive Office at Temus, where he oversees a team of Managing Directors who are dedicated to helping organisations in both the private and public sectors maximise their potential through Vision-to-Value digital transformation.

Prior to Temus, KC was Deputy Head of Temasek's Enterprise Development Group, where he oversaw Temasek's strategic portfolios in cybersecurity, food security and more, across a confluence of industries. He was also the founding CEO of Ensign Infosecurity, Temasek's cybersecurity company that was set up in 2018.

Before joining Temasek in 2017, KC was Managing Director of the Singapore Economic Development Board (EDB), the leading government agency for industry development and investment promotion. KC kickstarted his career in the EDB, where he was an EDB-Glaxo scholar, and contributed to multiple sectors – from aerospace to chemicals and biomedical sciences – including spending a 9-year stint in the United States.

His background in the EDB, coupled with the positions he held in Temasek, convinced KC to undertake ventures with a broader strategic purpose beyond that of economic value. Excited and inspired by the prospect of reimagining what the next generation of Temasek Portfolio Companies could look like, KC assumed executive leadership of Temus in 2021.

Today, KC leads Temus in its aspiration towards creating winning enterprises and businesses in Asia for the digital economy.

ABOUT TEMUS
